Living with the sun

Awnings are symbols of life
and interaction.

(quote from Dr. Leonhard Oberascher)

FEATURES

The perfect interplay of top-quality design and technical functionality.

Planosol® awning fabrics offer more than just shade. They protect you from sun and weather. They constitute a central design element in your house or business, or in your surroundings. Planosol® fabrics create atmosphere. They give you the living space you need, for many years. This is why Planosol® has chosen to fuse sensuality and function. Our fabrics are sophisticated high-tech products for the highest demands, available in a wide selection of designs and colours.

In brief: “thinking highTEX”. Our quality promise for your premium shade.

True beauty comes from within. Quality with a seal.

The quality of Planosol® awning fabrics is the result of long-standing, continued research. Innovations in technical functionality and processing are our answer to your different requirements and needs.

The highTEX quality seal stands for outstanding tested quality, and thus for an awning fabric that still meets the most demanding requirements after many years of use.

Quality in every fibre.

Our top-quality awning fabrics are made from 100% spun-dyed branded acrylic and guarantee for the highest functionality.

Long-lasting pleasure guaranteed.

The special finish of the fabric prevents the permeation of water, humidity and dirt, for utmost comfort that you will enjoy for years.

Reliable quality guaranteed.

Our 5-year guarantee covers the protective function, durability and colour fastness of our fabrics.

Saving energy naturally.

With an ideally positioned Planosol® awning, it is possible to reduce the energy consumption of your air conditioner by up to 80%.

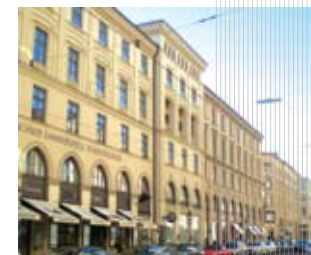

Fabrics as a role model.

Responsibility is what counts. Certification according to the ISO standards 9001:2008 and 14001:2004 as well as the OEKO-TEX® seal are a must. All our products comply with the REACH requirements.

Skin protection guaranteed.

Planosol® sun-protection fabrics are tested according to the UV standard 801, the world's strictest testing program.
